

Chief Medical Officer (CMO): The CMO serves as the principal medical provider for the organization and is responsible for the medical activities of all the clinical staff. The CMO is an active participant on the provider recruitment & retention of all medical providers at HSI. The final management approval of credentials for all clinical staff prior to submitting to the Board of Directors with recommendation for hire, resides with the CMO and/or CEO. The CMO is actively involved in all clinical aspects of the organization and serves on the Credentialing, Peer Review, Pharmacy, Risk Management and Quality Assurance committees. The Chief of Medicine, Pediatrics, the Dental Director, Director of Nursing, and the Quality Nurse report to the Chief Medical Officer. The CMO spends 80 percent of the time providing direct patient care then 20 percent performing administrative functions.
